E.B.(II). P.W.D.

In continuation of his letter at pp. 5-6 ante C, the S.E., G.I.C. has requested for grant of survey and Construction allowance to two other overseers working on the Patadungri Tank Project. As others on the same Project are allowed to draw the allowance vide, pl. G.L. at pp. 7-8-C,. it is clear that the two subordinates now mentioned by the S.E. will also be eligible for the said allowance.

2. The S.E., S.C., has requested that the subordinates engaged on survey and construction works at Kolshi weir on Malaprabha River may be held eligible for the survey and construction allowance. Pl. see portion ~~mkd~~ side lined 'A' of the S.E; S.C.'s letter at pp. 19-20-C. As the Hd.Quarters of the Sub-Dn. are only at a few miles distance from the site, it is very difficult to support the S.E's recommendation. It is for consideration whether the request made by the S.E., S.C. to grant the survey and construction allowance to the Subordinates working on the Kolshi Weir may be negatived.

It may be negatived. Σ+ 17-3

3. On a proposal from the late S.E., Koyna Irrign. Circle that the condition in respect of Municipal limits ~~mt~~ might be relaxed in favour of subordinates working on survey works in the late Koyna Circle, the S.E., Kar. Irrign. Circle to whom the charges of the late Koyna Circle are now handed over, was asked to offer his remarks in respect of the S.E. (Koyna Irrign. Circle)'s proposal vide Pl. G.L. No. 482/48-E(II), dated 16-10-50. The S.E., Kar,. Irrign. Circle has explained that so far as Koyna Irrigation Project Dn. No.2 is concerned, the subordinates in that Dn. after return to the headquarters. So far as Koyna Irrigation Project Dn. No.1 is concerned, the S.E. has forwarded a statement showing the details of ~~four~~ four of subordinates month by month from June to Nov. 50. From columns. 10 and 11 of the statement it will be

be seen that the subordinates return to the headquarters at an interval of 3 to 30 days and in very rare cases they are required to stary at site over a month. It is, therefore, for consideration whether the proposal made by the late S.E., Koyna Circle may also be negatived.

3. On receipt of orders on pages 2 and 3 above necessary drafts with reference to the S.E., S.C..'s and S.E,K.I.C.'s present proposals as also with reference to the office note, dated the 3-3-51 will be put up.

(1) I have seen condition of work at Kolchi. It is a very concentrated work being done day and night andd cpnstruction allowance may be sanctioned to subordinates being at the site of work during the construction season i.e. from Oct. to June end.

(2) As far the subordinates in the Koyna Irrign. Project Divisional any subordinate who stays on survey duty for more than 15 days at a time, should be given survey allowance for the month. If the unbroken period falls in 2 months he may be given that allowance for one month on the other the rule being interpreted to the subordinates, advantage.

2. Pl. See paras 1 and 3 of the G.R., P.W.D. No. 482/48, dated the 15-4-1950. The allowance is extended only to the Projects mentioned in para 1 of the G.R., while the sanctioning authority (for those Projects) is mentioned in para 3 of the G. R. However, it is presumed that if any new areas are to be brought under the prorview of the orders issued in the said G.R., F.D's approval will be necessary. The papers may accordingly be referred u.o. to F.D. (along with file No. 482/48-E) with reference to the office notes at pp. 3 - 8 ante.

are also being investigated by this Division. Some preliminary surveys in that connection have already been carried out and the detailed surveys for Power canal, Power House site, etc. for the same will have to be taken up later on, if the scheme is considered as a feasible one.

5. All the survey and investigation work in connection with the Ghataprabha Valley Development Shheme is being carried out by the staff of the Ghataprabha Right Bank Canal Sub-Division. Recently some staff of the Recn. Irrigation Projects Sub-Division is also diverted to carry out the contour survey in the Ghataprabha valley. The survey work is required to be carried out in thickly forested areas of the upper reaches of the Ghataprabha and Hiranyakeshi River valleys. The staff has to camp in out of the way places while carrying out surveys and thus the job is a difficult and tedious one requiring special efforts on the part of the staff.

6. The subordinates on survey work do not generally return to the Head Quarter often, except when it is absolutely necessary for exchanging damaged instruments, bringing new materials etc, The information for the last six months regarding tours of the subordinates who were on survey work, during the last working season is given in the accompanying statement.

7. From what has been stated in the Previous paragraphs, it will be clear that the Investigation and survey work in connection with the Ghataprabha Valley Development Scheme is just similar to that of Koyna Project and involves survey work of strenuous nature, requiring residence for prolonged periods in remote areas, Especially the capacity contour surveys will be a very hard job.

8. Hence it is requested that Government may please be moved to grant Special Allowance, at least to such of the subordinates, that are solely working

2. The details of survey work in connection with the Ghataprabha Valley Development Sbheme, that is being undertaken by this Division are as under:

i. Investigation of Alternative Dam sites in the Ghataprabha and Hiranyakeshi valleys.

ii. Carrying out detailed boring operations at the alternative dam sites namely Ajra, Hadalga, Adkur etc.

iii. Capacity Contour surveys in the Ghataprabha and Hiranyakeshi Valleys.

iv. Detailed Surveys for the alternative Dam sites.

3. The preliminary investigation of the alternative dam sites in Ghataprabha and Hiranyakeshi valleys was in progress from September 1949 to June 1950. Detailed boring operations frmmx at the more promising dam sites are in Progre ss, since more than a year and may continue for another six months or so. The capacity contour surveys have been commenced in the Ghataprabha valley and similar surveys in the Hiranyakeshi Valley will be taken up in due course, after decision as regards the selection of the Ajra Dam Site is arrived at.

4. In addition to the above, the possibilities of generating Hydro electric-power by utilising the natural fall between the Ghataprabha and the Hiranyakeshi valleys

are.....

No.G-5 Letter Public Works Department,
C.V.Belgaum: 27th Feb. 1951.

From

The Superintending Engineer,
Southern Circle, Belgaum.

To

The Chief Engineer,
Public Works Department, Bombay.

Subject :- Grant of Special allowance to Public Works Department subordinates on survey for construction works.

Reference: Government Resolution (Public Works Department) No.482/48, dated the 15th April 1950.

2. In the Government Resolution under reference, Government has sanctioned the grant of a special allowance equal to 20% of the basic pay with a minimum of Rs.30/- P.M. to Overseers, Surveyors, Sub-Overseers and Junior Engineers (Civil, Mechanical and Electrical) working on the actual survey and construction of Major Irrigation and Hydro Electricity Projects mentioned below:-

(1) Koyna Project -	(i)	Hydro-Electricity Part.
	(ii)	Irrigation.
(2) Gangapur Dam Project.	)	Survey of canals and distributaries excluding dam proper.
(3) Mahi Canal Project.		
(4) Patadungri Canal Project.		
(5) Ghataprabha Left Bank Canal Project.		For persons who are not stationed at Hukeri Road.

The allowance mentioned above has been granted with a view to compensate the subordinates working on the above projects who have to live and work in <u>remote</u> places which do not provide any amenities like quarters,

water supply, &c.

3. In the Ramdurg Sub-Division of the Belgaum Division, a major work of constructing a weir across the Malaprabha River at Kolchi estimated to Rs.20,31,140/- is in progress. The work has been entrusted to Messrs. V.R.Ranade & Sons, Contractors. The work is being carried out day and night to get the maximum turn out and as such some of the Public Works Department staff has to reside at the site of work which is devoid of amenities although it is only five miles from Ramdurg itself.

4. In view of the circumstances stated above, it is requested that the concessions allowed by the Government Resolution under reference may be extended to the Public Works Department staff employed on the Kolchi weir work also. The staff employed on the work at present are as under :-

1 Overseer (Civil).
1 Overseer (Mechanical).
1 Karkun.
1 Maistry.
4 Fitters and Mechanics.

5. Very ealrly orders in the matter are solicited.

D.A. Nil.
